ABOUT 1ST PRODUCTS

Quality, Precision, and Durability — With or Without a Tractor

At 1st Products, Our mission is to professionally market, sell, and distribute quality products and services, create exceptional customer satisfaction, and be the preferred supplier in our industry and market area. In doing so, we will add value for each of our four stakeholders: our customers, our employees, our shareholders, and our suppliers.

- Commission checks for your salesmen
- Discounts on our quality products
- First to hear of new products coming to the market
- Build a close partnership with manufacturers to help gain product knowledge and support
- Expand your own personal brand and image

“Turf Equipment and Supply Company has been partnered with the team at 1st Products for over 15 years. The foundation for our great partnership has been the continuation of industry leading products, enhancements, timely responses and our relationship with the sales and service team at 1st Products. We look forward to the next 15 years and the upcoming innovations 1st Products will bring to the turf industry.”

VC-40
VERTI-cutter

First Products introduces a smaller, compact version of the same quality. The VC40 offers tighter blade spacing from and ½"-2" spacing and an optional thinner blade, makes it the best VERTI-cutter for compact tractors.

Double Rollers

The double roller depth gauge system allows consistent depth control over undulations.

Available for VC-40 and VC-60

VC-60
VERTI-cutter

Double Rollers

The double roller depth gauge system allows consistent depth control over undulations.
1 1/2" spacing available now

Available for VC-40 and VC-60

Skids

The depth gauge skids are directly centered under the shaft allowing the skids to float over level surfaces. 2" spacing only.

Not available for VC-40

VC-90 VERTI-cutter

Improve your turf's health with the VC-90 VERTI-cutter. Designed for precision, the VC-90 effectively manages thatch and soil compaction, enhancing air, water, and nutrient absorption. Ideal for professionals, it ensures resilient, thriving grass with minimal effort.

- Floating 3" Heads
- Front Roller for Smoother Cut
- Hinged Rear Shield
- Fast Depth Adjustment
- Open Discharge
- Patented Swing Hitch

“

“We purchased our VC 60 in 2005, and it has been one of the most dependable and valuable units on our course. Its flexibility and turning ability allow us to navigate our “mogully” terrain and make tight turns without stopping. Our 35 hp tractor handles the verticutter easily. We use it for thatching, smoothing, and preparing fairways for overseeding, fertilizing, and topdressing. Our fairways look marvelous, and we receive daily compliments. The newly designed shoes prevent scalping turf and are super tough. After five years, we only need a new set of blades and are excited to try your new carbide-tipped units. Thanks for the great product.
